Project Name: ShopEase – E-Commerce Web Application

Maximum Marks: 2 Marks

Problem – Solution Fit Overview:

The Problem–Solution Fit ensures that the ShopEase platform addresses real shopping issues, improves user experience, and supports efficient product management for administrators.

Purpose:

- Provide a reliable and easy-to-use shopping platform.
- Enable users to browse, search, and filter products smoothly.
- Offer secure and order processing.
- Provide admin tools for inventory and order management.

Problem Statement:

- Poor search and ineffective filtering.
- Slow and confusing checkout experiences.
- Lack of transparency in order tracking.
- Complicated admin workflows.
- Difficulty managing product images and inventory.

Solution:

- Product browsing with high-quality images.
- Advanced search filters (category, gender, price).
- JWT authentication for secure login.
- Add-to-cart and seamless checkout.

- Admin dashboard for product and order management.
